A Best Practice Visit and a Resource Efficiency Workshop will be held at Canyon Europe on Thursday 27th August 2009, 09:00am to 13:30pm.

This event will highlight new opportunities to **reduce, reuse and recycle** resources within your organisation. The workshop, facilitated by NISP, will enable companies to realise **cost savings** and create new **business opportunities**.

The event will be hosted at Canyon Europe who are a leading company specialising in the design and manufacture of high quality and innovative trigger sprayers and dispensers. Canyon is a global company, trading in over 50 markets around the world. The company has state of the art manufacturing facilities in Northern Ireland, Japan and Vietnam.

Established in 1988 as the European subsidiary of the Japanese Canyon Corporation, over the last

three years the company has invested approximately £11 million pounds in advanced injection moulding equipment and automated assembly machines. Innovation is a key driver for Canyon Europe and has led to the establishment of a state of

company's waste minimisation programme. A range of industry experts will be contributing to the event including, Cherry Polymers and Waste End Strategy. Cherry Polymers will be presenting the new opportunities for polymer

processors that have been created by upgrades in the recycling supply chain and new technological developments. Waste End Strategy will be highlighting innovative solutions in waste management.

the art Centre of Excellence to provide tailored solutions and develop new products in response to market needs. This is an excellent opportunity to visit a global company delivering manufacturing excellence.

The best practice visit in Canyon Europe will highlight the successes of the

Places are limited at this event and will be allocated on a first come first served basis. We would recommend that you reserve a place now using the reply slip overleaf.

Canyon Europe Ltd**

WHAT IS NISP?

The National Industrial Symbiosis Programme (NISP) is a FREE business opportunity programme that delivers bottom line, environmental and social benefits to its members and is the first industrial symbiosis initiative in the world to be launched on a national scale.

CHANGING THE WAY WE DO BUSINESS

Committed to connecting industry and creating opportunity, NISP brings together companies from all business sectors with the aim of improving cross industry resource efficiency. What makes NISP different to other resource efficiency initiatives is that it deals with ALL TYPES OF RESOURCE – materials, energy, water AND supports the sharing of assets, logistics and expertise. Through NISP companies can contribute towards an environmentally sustainable economy. Visit www.nisp.org.uk

ACHIEVEMENTS WITH NISP

- diverted over 4.6 million tonnes of industrial waste from landfill across the UK
- generated £144 million in new sales for its members
- reduced carbon emissions by over 4.7 million tonnes
- saved its members over £122 million

WHAT IS THIS EVENT ABOUT?

NISP Northern Ireland is supported by Invest NI and seeks to improve the competitiveness of businesses through resource efficiency improvements. Over the last 12 months NISP NI have held 4 sector specific workshops and is pleased to deliver this resource efficiency workshop.

The workshop will seek to match companies with an excess of any resource with other businesses that can utilise that resource. Come prepared with an idea of the resources you have available or what you could use that others may have:

Pallets Chemicals Energy Transport Skills

Packaging Solvents Plastics Sludge By-product

Steam Effluent Water Timber Metal
